

## Workshop Report 2015/2016.

- Six out of the seven calendared workshops took place.
- Attendances were similar to previous years with one 'standout' of 30 for Adobe Lightroom – Printing to Perfection by Peter Orr.
- Creative Tabletop and Macro by Linda Carlin was the 'standout' for participation and getting the creative juices flowing. I received many expressions of appreciation for the obvious time and effort Linda and Gerard had put into the preparation prior to and on the evening inspiring and fun evening.
- The time and effort put in to all the evenings by all the presenters is also quite considerable and shows through in the interest shown on the evening.
