

**WINCHESTER PHOTOGRAPHIC SOCIETY
AGM – 29 MAY 2018**

Matter arising from 2017 AGM

From the 2017 AGM Minutes

Rafe Pascuale raised an item relating to a Members Exhibition. He proposed that the committee discuss holding a Members' Exhibition where each member brings along a print to hang in the exhibition. This would be in addition to the WPS Annual Print Exhibition. The motion was accepted and will be discussed at a future meeting of the new committee.

Extract from Committee Minutes

It was strongly felt by the Committee that the current Annual Exhibition should be focused on presenting to the public the best of members' imagery. An idea of having a rolling display pictures from all members on a screen during the exhibition would not be practical. It was also concluded not practical to ask members to manage the significant task of running a 2nd exhibition of images from the wider membership. It was noted that there continues to be:

- A members' area within the WPS website, but this is under utilised by members. It was felt that it should be better publicised by (for example) including a reference to it on Newsletters during the year
- Hospital Display: Again this has been a facility open to members to present their printed images, but with limited take-up. It was proposed that the displayed images could be augmented by some of the winning/well placed images from the monthly print competitions.
