

## Publicity Officers Report May 2009

It has been an interesting year. We started off by revamping the flier for the Littleton Show. We had many members join us this year having seen these fliers. We also updated the information in 'What's on in Tywford' to help encourage members from this area. There has also been great personal success this year within the club with many members getting RPS and PAGB distinctions. This is something that we wanted to ensure was advertised within the club and have announced at club meetings when notified of these successes.

There are some points that we will be concentrating on next year, getting closer to the local press, using the Discovery Centre's advertising power whilst keeping our identity, and also including fliers at the Alresford show.
